

LUMIERE *Collection*

SAMUEL & SONS

SAMUEL & SONS, the premier passementerie tradition in the interior design community, introduces the Lumiere Collection, inspired by the interaction of light, metal, and fiber and how they influence each other. Lumiere is a radiant collection of trimmings that empowers interior designers with innovative patterns and colors to bring their rooms to light.

The Lumiere Glass Beaded Fringe features a gilded linear header from which hand-tied glass beads suspend. The beads are illuminated by their satin, iridescent glaze which allows them to reflect various hues.

The reversible Lumiere Ribbed Border reveals a masterful construction. The face of this border features a satin rib diamond resembling a plissé which gains depth and splendor from the metallic ground beneath. On the reverse, the emphasis is on the metallic which exudes sophistication in color interpretation and abstracted pattern.

The Lumiere Gimp coordinates with the Glass Beaded Fringe by repeating the gilded liner geometry. The Lumiere Cord is a 4mm woven herringbone cord that strikes proportional balance between sheen and matte.
