SAMUEL & SONS
SUMMER 2025

Luxury in Every Detail

Trimming is the defining detail that transforms a space, infusing it with sophistication, texture, and depth. Whether framing drapery, accentuating upholstery, or adding a distinction to fine furnishings, Samuel & Sons latest collections celebrate the beauty of masterful embellishment. We are proud to introduce three distinctive collections—Le Jardin, Aria, and Terra Viva—each designed to elevate interiors with artistry, craftsmanship, and timeless elegance.

Le Jardin, the newest addition to our Essentials Collection, offers an exquisite selection of silk cords, gimps, key tassels, chair tassels, and tufts in a rich, expanded palette. The collection now features Blush, Garnet, Melon, and Sea Crest, alongside metallic silk-lurex shades in Platinum, Gilded Gold, Bronze, and Antique Silver, blending classical styling with modern sensibility. These refined hues add warmth, depth, and a touch of luminous elegance, allowing for sophisticated layering across upholstery, drapery, and decorative accents. Le Jardin's versatility and luxurious textures provide endless opportunities for refinement.

Aria expands with six captivating new shades of the luxurious Silk Brush Fringe, introducing Patina, Terra, Snow, Surf Blue, Celery, and Walnut. This 1-inch dimensional fringe, crafted from lustrous strié silk yarns, offers remarkable density and movement, making it a statement piece for any upholstered or drapery application. The tonal depth of the new hues enhances the richness of the collection, delivering a palette that is both sophisticated and adaptable to a range of aesthetics.

Terra Viva embraces the raw beauty of natural materials, offering a collection of borders and fringes that evoke organic textures and earthy tones. The La Terre Cut Fringe, crafted from paper-based yarns, creates dramatic movement in neutral shades of Canvas, Flax, and Dune. The Botanical Jute Border and Terra Garland Border feature intricate appliqué jute detailing, adding a refined yet understated elegance to interiors. With its artisanal craftsmanship and serene palette, Terra Viva brings a sense of warmth and connection to any space.

From the silk opulence of Le Jardin and Aria to the natural textures of Terra Viva, Samuel & Sons continues to redefine luxury through the artistry of trimmings, offering designers limitless possibilities for elevating interiors.

INTRODUCING: The Atlanta Showroom

We're delighted to announce the opening of our eighth flagship showroom in the heart of the Atlanta Decorative Arts Center, designed in partnership with Timothy Corrigan. We look forward to serving this vibrant community, one that has long embraced the art of trimming and inspired us with its applications, with a dedicated home base for all their passementerie needs.

WALLPAPER DE GOURNAY

Following his masterful renovation of our New York showroom, we once again turned to world-renowned interior designer and passementerie expert, Timothy Corrigan, to design our Atlanta flagship. We sat down with Timothy for a peek behind the curtain into how he created a space that reflects the city's signature warmth and hospitality while capturing the vibrant sophistication that defines its unique homes.

SAMUEL & SONS: What three words describe your guiding vision for the Atlanta showroom?

TIMOTHY CORRIGAN: Elegant, pretty, and timeless.

S&S: What's your favorite showroom detail?

TC: I love the Parquet de Versailles floor... it immediately speaks to an elevated sense of style.

S&S: What feeling do you want the showroom to evoke?

TC: There are so many beautiful showrooms at ADAC but we intentionally wanted to create a haven for designers to be able to come in and elevate their work to a whole other level of sophistication because good design is all about the details and Samuel & Sons has the perfect product for every kind of project.

S&S: Do you have a favorite local spot nearby?

TC: Atlanta has some of America's best homes but how can one not fall in love with Swan House... Philip Shutze was a genius!

S&S: Where in Georgia do you go for inspiration?

TC: Honestly, what I love most about Atlanta is the warmth and hospitality with which folks in Atlanta open up and share their beautiful homes.

S&S: Which trim feels the most "Atlanta" to you?

TC: The Bagatelle Scalloped Tassel Fringe in Petal embodies all that I love about Atlanta: incredible richness, sophistication, and a touch of playfulness without coming on too strong!

Aria Collection

Aria is a lustrous, dimensional silk brush fringe offered in a full range of sumptuous tonal shades.

*Aria Silk Brush Fringe in
Ecru, Surf Blue and Terra*
FABRIC **NOBILIS**

Above: Aria Silk Brush Fringe in Vapor, Snow, Wedgewood, Oro, Ecu, Emerald, Celery, Patina, Surf Blue, Blush, Terra, Ruby, Indigo, Walnut and Onyx

Opposite Page: Aria Silk Brush Fringe in Walnut and Oro

The Aria Silk Brush Fringe, a 1-inch dimensional fringe, blooms into an elegant 180-degree edge composed of lustrous strié silk yarns. This refined construction features a remarkable density, blending the softness and richness of silk to create a truly lavish fringe for upholstered and drapery applications

Where flowers bloom, fringe follows. The sofa's Bagatelle Tassel Skirt Fringe in Petal is mirrored with a clever row of Elementi Tiered Fringe in Carciofo on the floral wallpaper above, layered with the coordinating Elementi Ombré Border, both by Maddux Creative.

A painted portrait is framed with the sculptural Bagatelle Velvet Border in Dewdrop by Timothy Corrigan and Aria Silk Brush Fringe in Blush, complimenting its soft petal pinks and muted greens.

The Aurelia Ombré Border elevates two tall lampshades in perfectly paired colorways Honey and Shell.

It's Time to Trim the Walls

Walls have long been a canvas for ornamentation, which has rarely included passementerie — outlining an upholstered panel or tracing the edge of an architectural detail. But what if trim took on a larger role? Explore five rooms where we brought trim center stage, with inspiring applications that not only enhance existing features but take on a decorative life of their own.

Two distinct trimmings come together in a creative interplay of timeless geometry and botanical beauty. The Aristotle Greek Key in Coral and Mare Embroidered Border in Crimson are layered within the ridges of picture frame molding, juxtaposing this classic architectural feature with a playful edge.

To the right, the time-honored gallery wall receives an unexpected update. Four fantastical passementerie frames infuse movement and unique flair into a curated collection of artwork. The Dorset Velvet Scallop creates a striking silhouette, grounding the delicate painting with its rich Coral hue. The Aristotle Greek Key in Golden Strie, Veranda Linen Crete in Waterlily, and Palais Scalloped Tassel Fringe in Jardin highlight the artwork's palette in three distinct ways, creating a harmonious yet varied dialogue between trim and art.

The Antoinette Embroidered Border in Sapphire underscores the pink picture rail above, accompanied by the French Grosgrain Border in Ruby and Palais Scalloped Tassel Fringe, mirroring the frame below.

The room's resplendent ocher sofa is accented by a lengthy lumbar pillow, embellished with two rows of Annecy Brush Fringe in Gold and a delicate line of Margaux Rosettes in Mandarin in between.

Leaning into green, the dimensional Maxim Velvet Border in Emerald and Bagatelle Velvet Border in Fern by Timothy Corrigan offer a contemporary twist on traditional frame molding. The Elora Embroidered Border in Green Tea completes the look, bringing a simple lampshade into the verdant scheme.

Geometric details that transform... The Alessia Velvet Border in Ebony adds contrasting pattern to four wide-striped panels, while the Corrales Appliqué Border in Piñon zigzags along the top and bottom of this antique dresser. The Aristotle Greek Key in Classic White and Black traces along the wall behind, continuing this rhythmic movement into the rest of the room. A final flourish — the Margaux Key Tassel in Mandarin hangs from the brass knob, adding to its warmth and luster.
