Timeless Sophistication: Samuel & Sons Presents
The Kensington Collection

NOVEMBER 2012 (New York, NY) – Samuel & Sons, the premier passementerie tradition in the interior design community, introduces Kensington, a classically detailed trim line that challenges the traditional expectations through intricate braiding and twenty fresh color combinations.

“With every collection we introduce, the goal is to provide a unique design solution for our clients that speaks to their aesthetic and lifestyle sensibilities,” explains Michael Cohen, President of Samuel & Sons. “With our spring line, we embrace their penchant for a contemporary color palette as well as offer products that reflect how they live.”

The Kensington collection evokes sophistication incorporating a visual vernacular reminiscent of old-world luxury. The central pattern of this line is a plush, hand-tied Onion Tassel Fringe composed of triple layer strié tassels strung from a strikingly dimensional header. The collection also includes the 2.5” Kensington Braid, an intricately woven, graceful jacquard braid that weaves four flat strands in a contemporary pattern on a tape ground. The result is a textured, three-dimensional look. The onion fringe makes an impressive appearance in the Double Tassel Tieback. The fringe hangs boldly over the bouillon fringe skirt and embellished with velvet ruche. The ¼” vertical stripe Kensington Cordedge offers the perfect subtle complement to the line. Kensington's timeless twenty toned color palette spans pale silvery greys, earthier walnut and terracotta tones, soft hues of petal pink and orchid, and meadow-fresh greens.

The Kensington collection from Samuel & Sons is available in the New York flagship showroom and the Chicago showroom in the famous Merchandise Mart as well as in fine showrooms throughout the United States, Canada, Europe, Asia, Australia, New Zealand and the Middle East.
