

## New for spring 2015: The Seychelles collection

Samuel & Sons presents Seychelles, a collection inspired by the waves and the impressions they leave behind in the sand. The collection is crafted from natural materials and features an array of colours found in the untouched paradise of the Indian Ocean archipelago.

Seychelles comprises of wood bead fringes, borders and gimps, all of which feature woven cotton, a fabric indigenous to the Seychelles islands. There are two wood-beaded fringes available in the range; a 2" border and 1/2" gimp. The first of the wood bead fringes is a slender, satin glazed teardrop and the second is satin glazed globes.

The colour palette is broad, composed of naturally influenced neutrals, mid-tones and deeper mineral hues, offset by a series of brights derived from tropical vegetation.

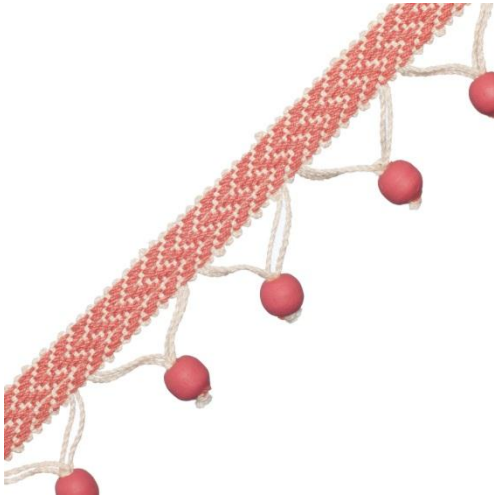

Stylistically this collection pairs well with plain linens or cotton cloths, textures and large-scale prints. The satin glazed beads will also complement drier silks with subtle lustre.
