Samuel & Sons Introduces the Labyrinth Collection

FEBRUARY 2015 (NEW YORK, NY) - New this Spring, the Labyrinth Border collection, by Samuel & Sons, reinterprets the geometry and proportions of the classic architectural mazes from Grecian antiquity.

The Labyrinth Border was inspired by the proportions and configuration of the classic architectural mazes from Grecian antiquity. Taking the structure of the original architecture, the Design Studio extracted sections of the mazes and developed a new geometry. Clean and graphic in its rendering, this tailored design is created through a series of raised satin stitches which sit above a refined ground. The dual-tone approach to color varies from the subtlety of neutrals in *Twine* to the high contrast of navy against ivory in *Midnight*. There are also several vivid, tone-on-tone interpretations such as in *Ruby*, *Palm* and *Azure*. In total Labyrinth offers nineteen colorways.

The Labyrinth collection from Samuel & Sons is available in the New York flagship showroom, the Chicago showroom in the famous Merchandise Mart, and most recently, in London's esteemed Design Center Chelsea Harbour, as well as in fine showrooms throughout the United States, Canada, Europe, Asia, Australia, New Zealand and the Middle East. For information and locations, please visit Samuel and Sons at www.samuelandsons.com or call 212.704.8000.
